

5 October 2026

Dear Parents and Carers

Following our recent Ofsted inspection, we wanted to share some further information with you about the outcome and provide some context around the findings.

We are pleased that **four areas of our work were judged to be strong: Inclusion, Curriculum, Early Years Foundation Stage and Personal Development.** Three other areas were judged to be **expected.**

We are proud of the strengths identified by inspectors. These judgements reflect the hard work and commitment of our staff, governors, pupils and families, and the positive culture we have worked hard to develop across our school.

Following discussion at our recent governors' meeting, on Tuesday 22nd September 2026, we also felt it was important to share some additional context with parents.

Attendance

The attendance information considered during the inspection was affected by an exceptional circumstance involving one family during the previous academic year. Due to significant family circumstances, this resulted in a level of absence that had a disproportionate impact on our overall SEND attendance figure.

When this exceptional circumstance is considered separately, our SEND attendance is above the national average.

We recognise the importance of high attendance and will continue to work closely with parents and carers to support every child to attend school regularly and make the most of their learning.

Achievement

The inspection also took place before our **2025–26 KS2 SATs data** was available on the Ofsted Inspection Dashboard Summary Report. The latest data currently shown on the report relates to **2024–25.**

Our 2025–26 achievement is as follows:

- **Reading – 94%**
- **Writing – 74%**
- **Mathematics – 96%**

We are proud of these outcomes. They provide important additional context around our pupils' achievement and demonstrate the **positive trajectory we are on as a school.**

As these results were not yet available at the time of the inspection, they did not form part of the national data available to inspectors.

(Continued overleaf)

Our next steps

Our next steps are focused on building on this progress. We will:

- **Continue to embed our curriculum**, ensuring that teaching approaches are increasingly consistent across the school and support pupils to achieve strong outcomes.
- **Continue to work closely with parents and carers to promote high attendance**, recognising the important relationship between regular attendance, learning and achievement.

The strong outcomes achieved by our pupils last year give us confidence that the work already taking place is having a positive impact. Our focus is now on continuing to embed this work and ensuring that these improvements are sustained over time.

We see the inspection as one important source of evidence about our school at a particular point in time. We will continue to consider this alongside our own assessment information, attendance data, pupil progress and feedback from pupils, parents and governors to ensure that we are continually improving.

We are grateful for the continued support of our parents and carers. Most importantly, we remain incredibly proud of our pupils and of the dedicated staff who work hard every day to help them thrive.

With best wishes,

Amy Creamer (Chair of Governors – at the time of inspection)

Tracy Clark (Current Chair of Governors)

Jon Warrener (Headteacher)

Julian Rose (Headteacher)

Alex Hill (School Business Manager / Leadership Team)

This report can be viewed on our website - [Ofsted Report 2026](#)

It will be published on the Ofsted website withing the next 5 days.
